MAY 1, 2017 – Parody duo Palette-Swap Ninja are proud to announce the release of *Princess Leia's Stolen Death Star Plans*, a stunning recreation of The Beatles' classic *Sgt. Pepper's Lonely Hearts Club Band* that tells the full story of the original *Star Wars*. Meticulously re-created songs from the album come to fresh life with spellbinding lyrics, recasting the classic movie in a way you must hear to believe.

Coinciding with the 40th anniversary of the release of the iconic movie and the 50th anniversary of The Beatles' magnum opus, *Princess Leia's Stolen Death Star Plans* is a stunning blend of two much-revered, much-loved masterpieces.

Over the course of this project—five years in the making—Palette-Swap Ninja's star duo, Dan Amrich and Jude Kelley, painstakingly recorded every nuance of every song on the original album. The result weaves inventive, faithful, and hilarious lyrics about Luke whining in the desert and poorly planned prison rescues while adding surprising sparks of musical motifs from *A New Hope*.

This brilliant combination of two beloved pillars of pop culture is like nothing you've experienced before.
